

# 222 - OIL SOAP

OIL SOAP is used for cleaning of finished wood surfaces like wooden floors, cabinets, tables and chairs, paneling and laminate floors. Also suited for care of non-wood surfaces like ceramic tiles, painted surfaces, linoleum- and vinyl floorings. Provides protection and leaves a dirt repellent surface.

## Instructions

For cleaning of floors dilute ½ dL oil soap in 5 liter of warm water. For heavy cleaning use 1 to 5 liter dl of warm water. Apply with a soft cloth or clean mop and remove excess with a soft dry cloth. For other surfaces, wet a cloth in the diluted oil soap and wipe the surface clean.

**Caution:** Do not use on unsealed or waxed surfaces, as they may be water sensitive. If used on an unknown surface: test the solution in an inconspicuous place.

## Declaration

Contains: Water, saponified vegetable oils, 15-30% soap, perfume.

**WARNING:** Keep out of reach of children.

## Conditioning

250ml (12 units/box) / 500ml (12 units/box)
