

306 - MARBLE POLISH

MARBLE POLISH for treatment and care of marble and other hard, non porous surfaces like stone and tiles. The smooth and glossy wax coating will protect against spillage of most liquids, however, spillage of liquids containing alcohol may slowly dissolve the wax and should therefore be wiped off as soon as possible.

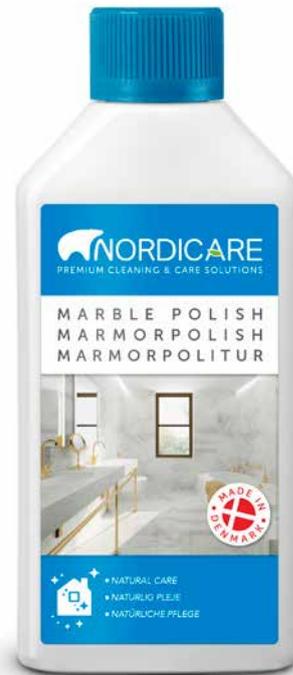

Instructions

Apply the wax with a soft cloth to a clean and dry surface in an even layer. Let dry, and polish with a clean, soft cloth. Change cloths often, when polishing larger areas. For daily maintenance wipe surface with a damp cloth.

Declaration

Contains: Selected waxes, silicone oil, mulsifiers, aliphatic hydrocarbons, deionized water and preservative.

WARNING: Keep out of reach of children.

Conditioning

250ml (12 units/box) / 500ml (12 units/box)
