

408 - LEATHER CREAM

LEATHER CREAM custom-made product, designed for care and protection of furniture with pigmented leather. Also suitable for handbags, wallets and other leather products. The cream protects from grease and dirt, keeping the leather soft and supple, thereby preventing cracking. Contains UV-protection.

Instructions

Clean the surface with NORDICARE leather soap. Do not work in direct sunlight. Shake the bottle before use. Use a sponge or a clean cloth to apply a continuous thin layer, which is massaged into the leather with a light touch. Wipe off excess cream with a clean, cloth. Allow the leather to dry 1 hour before you use it again. Treatment should be made 2 times a year and 4 times in exposed locations such as armrests and headrests.

Caution: Do not use on mocha, nubuck or highly absorbent leather. Makes aniline leather temporarily darker. Always test for colour authenticity in a non-conspicuous place.

Declaration

Contains: Oils and waxes, UV-filter, emulsifiers, water, perfume and preservative.

WARNING: Keep out of reach of children.

Conditioning

250ml (12 units/box) / 500ml (12 units/box)
